Caveats:

* Data was extracted on 1 October 2020 and includes all suspension cases up to the end of September 2020.

* The data is live and therefore subject to change.

* Values less than five have been concealed (x) under section 9(2)(a) of the Act to protect the privacy of students involved.

* It is important to note that suspensions, exclusions, and expulsions are not measures of student behaviour but measures of a school's reaction to such behaviours. What one school may choose to suspend for, another may not. The number of these events should not be used as a proxy measure for total student behaviour.

* Exclusions and expulsions are subsets of suspensions and should not be added to suspensions.
